## Eisenhower Signs Housing Bill Permitting Lower Down Payments

WASHINGTON (AP)—Legislation permitting lower down payments on FHA-insured homes was signed by President Eisenhower Friday. But whether the reduced scale will go into effect will not be known until next week.

Eisenhower did not say one way or the other, although he criticized other features of the omnibus housing bill in announcing his approval of the measure as a whole. Ever since Congress passed the bill on July 1 there has been an argument in administration quarters over whether its lower down-payment provision would have an inflationary effect.

Housing Administration said Friably will take advantage of the will be taken until next week. In addition to the lower downpayment proviso, the bill authorizes \$1,990,000,000 for various hous-

### What Can You Do With Adults?'

A lady called the editor's desk earlier this week to describe an incident she had witnessed. She thought an editorial on the occasion well could be titled, "What can we do with adults?," with the words to be put in "the mouth of a typical Jacksonville teen-ager.

Our informant told us that she was getting pretty tired of seeing newspapers using carloads of expensive newsprint and tons of black ink narrating the evil doings of juveniles, and with seldom a word about the accomplishments of our typical teen-agers.

We could have replied that we always try to give plenty of credit to the boys and girls who do a fine job at anything, but still it is too often our painful duty to print the other sidethe unpleasant side. But such comment, we believe, was necessary and, furthermore, it has no place in this

So, the two youthful Good Samaritans got back in their car and continued to the south. Our informant says that before they left they shook their heads in a very mournful manner as if to say, "What can you do with them when they get old'?'

## Ungrateful Teen Just Fears He'll Never Stop Owing Us BY MRS. MURIEL LAWRENCE

Brokenly the mother said, "You don't know what it's been like Day after day for 10 years I've waited on restaurant tables so this girl could get a decent education. She's gone to a nice school, had nice machines. Two vending machines, friends and clothes. Now she hates me and her home. She says she's leaving even if it means not graduating from secretarial school." I said, "Your daughter is very tired, too. She's worn out by a sense of obligation to you Then together my visitor and I set ourselves to reconstructing the

child's position as receiver of the day-in, day-out sacrifice. I said, "She couldn't help you wait on tables. She couldn't even do much about your tired feet. She couldn't do anything but feel under terrible obligation. It's gone on piling up and up. . "You mean," my visitor interrupted, "that Iris has to pretend she

owes me nothing because she knows she owes me so much?" "Just now she's got to pretend it," I said. "Or she'll never dare to leave you to begin her own life." Like this girl, the adolescent child often appears to be a most un-

His ingratitude dissolves as this terror dissolves. So the thing to do is to speak to the terror instead of the ingratitude. That's what Iris' mother did. She said to her daughter, "Have patience. Another New and Bigger Forward Control 'Jeep' Truck

Here's a completely new, bigger, more power ful, 7,000 pound GVW, Forward Control 'Jeep' Truck - the all-new FC-170.

• More cargo space on less wheelbase! The new FC-170 puts a 9-foot pickup box on a wheelbase only 1031/2 inches long. Bed is only 27 inches from ground for easier loading!

• More efficient space utilization! Compare it with any other 4-wheel drive truck. You'll find that only the FC-170 gives you so much cargo snace per inch of wheelbase.

• New high in "big-load" maneuverability! The FC-170 is the only 4-wheel drive truck to give you "go-anywhere" 'Jeep' maneuverability with a payload capacity of up to 3500 pounds.

• Other outstanding features: High-torque Hurricane 6-226 engine, time-tested and perormance-proved . 8-inch ground clearance to prevent off-road "hang-up" in rough, open country . With power take-off, the new 'Jeep' FC-170 operates a wide range of special equipment from vinches to belt-driven machinery.

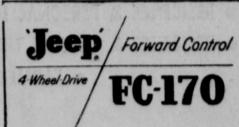

The Newest addition to the 4-wheel drive 'Jeep' family!
